

Superb filter technology enhances cleanliness level

PAU-40G

PAU-60G

PAU-80G

Removes 99.97% of pollutants and allergens as small as 0.3 microns.

1 Best choice for spacious area

Energy-efficient with high air intake. Big ventilation allows purifying air rapidly.

2 Adjustable deflector

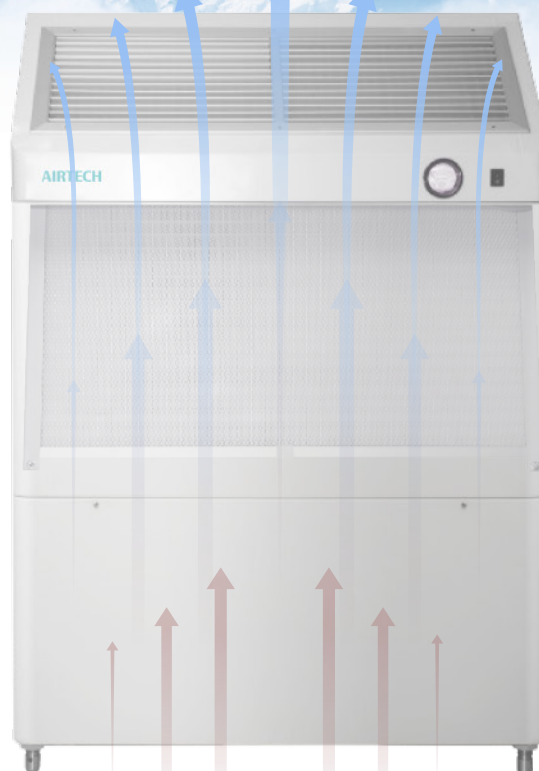

The air can reach each corner with the air adjustable deflector.

3 Multi-layer filtering

Purify indoor air by removing the particulate matter and allergen at 0.3 micron and above.

4 Autonomous manometer

The condition of the HEPA filter can be displayed on the manometer.

PAU-80G

PAU-60G

PAU-40G

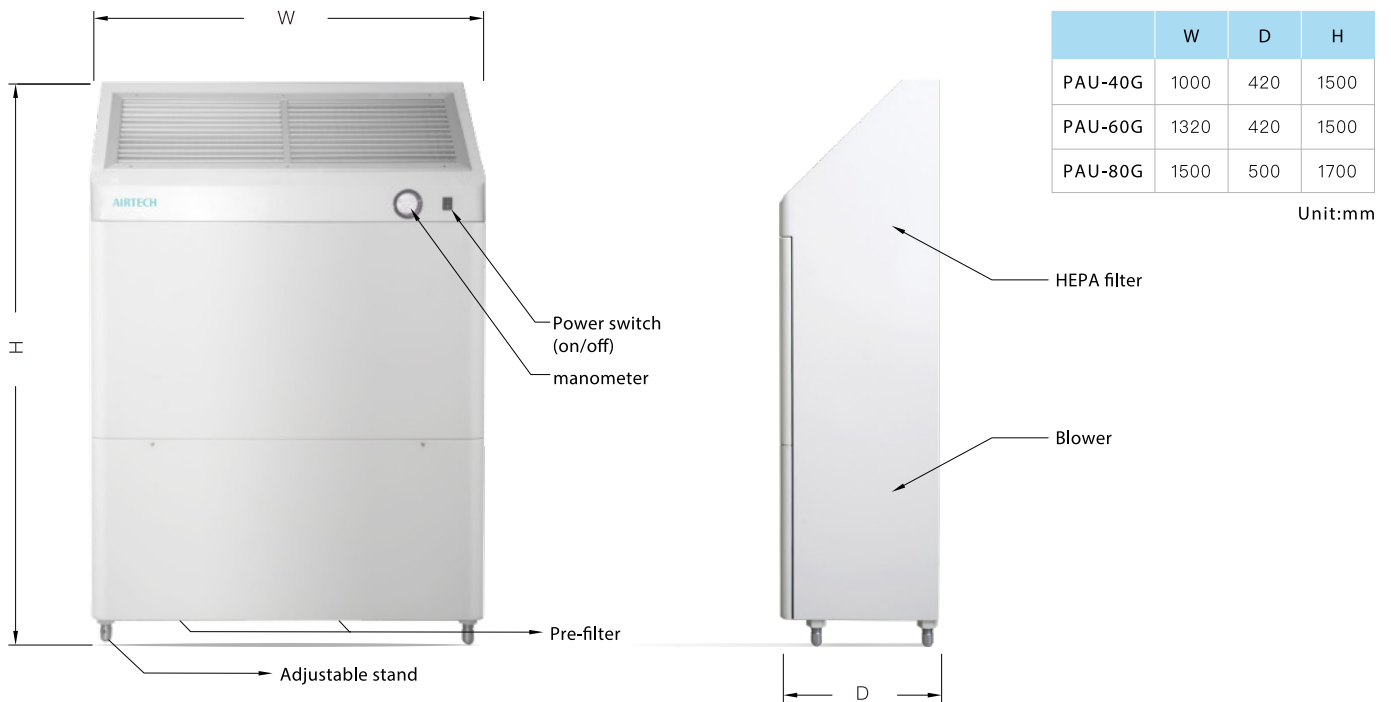

Bottom air-in design. Space-saving by wall placement, casters are easy to move.

The front cover is attached with the EPDM vacuum seal for greater air tightness.

· It suitable for the office, store, clinic, and other spacious indoor space.
