

AIRTECH

超小型無塵無菌送風機

MULTIPURPOSE FAN FILTER UNIT (SS-MAC)

SS-MAC is a **small-scale · multipurpose unit** that can be **easily installed** by yourselves.

MAC-11

1 *Lightweight but rigid design*

The outer shell is constructed from antistatic resin.

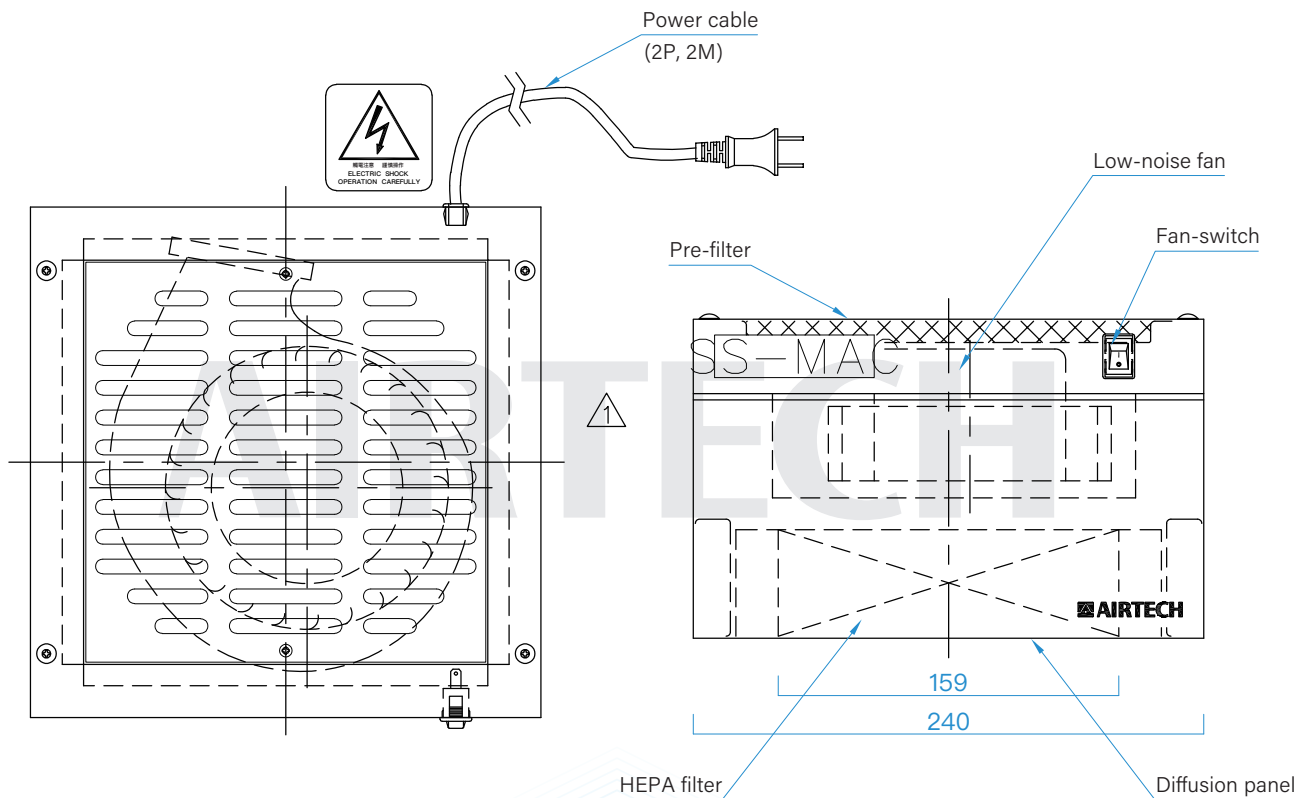

2 *DC brushless motor*

Utilizes a power efficient DC brushless motor, resulting in lower power consumption and higher energy savings.

3 *Equipped with HEPA filter*

The HEPA filter can be replaced with an ULPA filter depending on your required specifications.

Drawing

Specification

Model	MAC-11
Particle Efficiency	Above 99.99% Efficient On 0.3 μ m Particles
Pre-filter	Non-woven nylon filter 185x185x7t x 1pc
Main filter	HEPA filter 200x200x50t x 1pc
Air Velocity(m/sec)	About 0.6 \pm 10%
Air Volume(CMM)	About 1 \pm 10%
Structure	Cold-rolled steel plate bake painting
Motor & Fan	AC 110V or 220V 1 Φ 50/60Hz / Low noise fan x 1set
Color	Ivory
Power Consumption(VA)	About 52 (45W)
