

AIRTECH

便攜式浴塵機

Air Shower (Portable Type)

Light weight, **easy to move** and install
conserve electricity

SS-ES08

SS-ES04

1 Energy Saving

DC blowers saves 26% of the electricity cost than AC blowers.

2 High wind speed & High performance

High power air jet maintains 25m/s wind speed. It can provide filtration cycle in a short time.

3 Passed certification

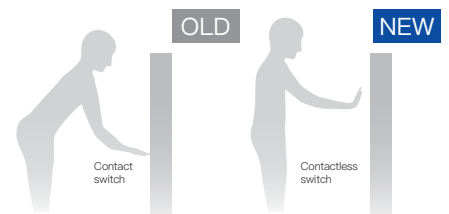

Blower passed CE certification & UL certification.

4 Two wind speeds

Provided two wind speeds : circulating wind & strong wind mode.

5 Contactless switch

Equipped with sensor that can start automatically without touching the switch.

Cover protection

There is an outer cover at the junction, which reduce the number of collisions and scratches.

Handle design

Equipped with handles on both sides, which are easy to move and install the machine.

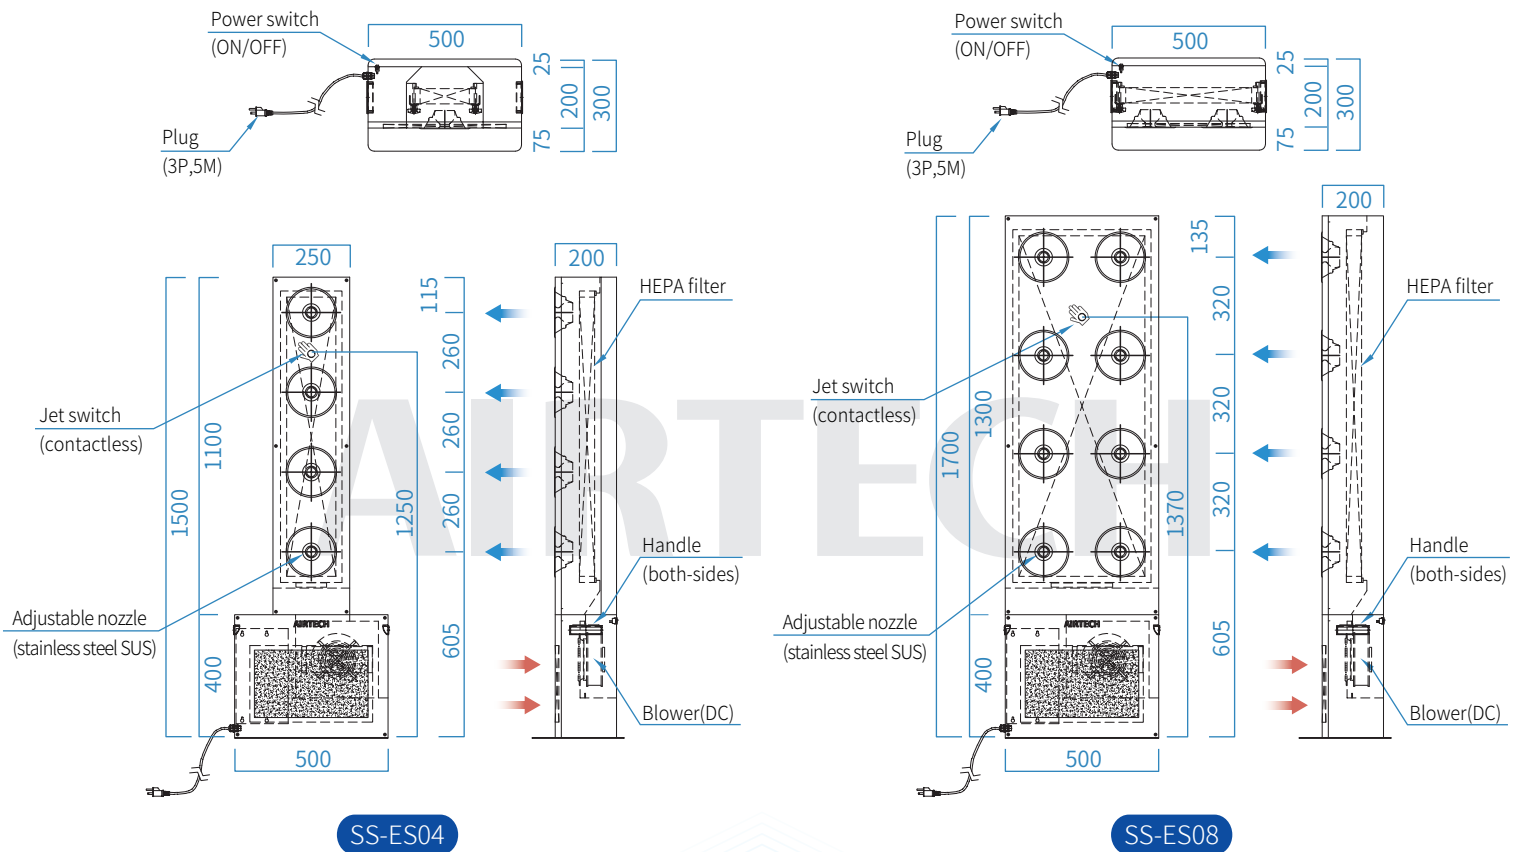

Switch wind speed

The default is the cycle mode, and the enhanced cleaning mode blows strongly for 30 seconds.

Contactless switch

The exterior has a hand-shaped icon, which is easy to understand and clear at a first glance.

Specification

Model	SS-ES04(DC)	SS-ES08(DC)
Particle Efficiency	Above 99.97% Efficient On 0.3μm Particles	
Pre-filter	Non-woven Filter x1pcs	
Main filter	HEPA Filter x1pcs	
Nozzles Qty.	4 Pcs (stainless steel sus nozzle)	8 Pcs (stainless steel sus nozzle)
Electrical	AC 90~240V 1Φ 50/60Hz	
Electrical Switches	Power Switch (ON/OFF), Contactless Switch for Air Jet	
Air Velocity(m/s)	Above 25	
Air Volume(CMM)	Air Jet : Above 4.2 Recirculation air : Above 1.6	Air Jet : Above 8.5 Recirculation air : Above 2.8
Construction	Cold-rolled Steel with Bake Painting	
Color	Pearl White	
Power Consumption	225W	250W
Weight	35Kg	45Kg
